By Author BØRNS (BØRNS) - Dopamine (Target Deluxe Edition) (2015) [CD-FLAC] [sn3h1t87] [GloDLS]Q: Javascript: How to stop popup when I close the "Download as..."-button I want to create a code which does that everytime I open the download window, it will automatically close the window if I click the "close" button of the browser. Javascript: function openWizard(){ var downloadWindow = window.open("download.php?id="+59, "download", "width=1200,height=550"); downloadWindow.onunload = function () { window.close(); } return false; } I have tried some things like document.onclick = closeDownloadWindow, document.onclick = function closeDownloadWindow(){ window.close();}, but none of them worked. A: In your script, you can do this var downloadWindow = window.open("download.php?id="+59, "download", "width=1200,height=550"); if (downloadWindow.closed) { downloadWindow.open(); } to open again when it is closed. Hope it helps Percutaneous endoscopic gastrostomy: experience in pediatric patients with intestinal failure. A percutaneous
