July 9, 2015 - If this software or related documentation is turned over to the US government or anyone else. On the desktop, click the Fidelio Suite8 icon. Select Run and type ipconfig/all. A list of nodes will appear on the screen. Select "Telnet" and enter the host's IP address to connect to it. Click in the window to open the Fidelio toolbar. Right-click on the desktop and select the Fidelio icon to display the Fidelio toolbar, which allows you to run Fidelio commands and export data to an Excellon document. To launch any of these applications, select one of these icons: fffd4f19a
