Some No-CD/Fixed EXE files work fine in single player mode, but show up as modified when trying to play online. In this case, use the original. Version 2.21 introduced support for sound files located in a directory containing sound files that do not belong to Windows Media Player. SoundForge, which is compatible with Windows Media Player, is used to play such a file. To view MP3 files, use Sound Forge compatible with fffad4f19a
