GetLeeco Le Pro 3 X722 Step by Step Guide in High Quality [pdf/kindle] GetLeeco Le Pro 3 X722 Step by Step Guide in High Quality. Dear Editor, Coronavirus disease 2019 (COVID-19) is a new human coronavirus, recently emerged in China and causing a global outbreak.[@bib0001] Children were the second most affected, and the mortality rate among children was higher than that among adults.[@bib0001] Clinical manifestations were mainly characterized by fever, cough, myalgia, and fatigue.[@bib0002] Recent studies showed that, except for fever and cough, children and young adults with COVID-19 had additional clinical manifestations such as headache, sore throat, nausea, vomiting, and diarrhea. There was a possibility that these manifestations were associated with children with COVID-19, but the exact pathogenesis and disease course have not been well explored. Here, we retrospectively analyzed the clinical characteristics of 35 children (age \
