A: select * from #temp where product_id='1234' and `desc` not like '%[%' and `desc`
not like '%[%' and `desc` not like '%[%' should be select * from #temp where
product_id='1234' and `desc` not like '%[%' and `desc` not like '%[%' and `desc` not

like '%[%' and `desc` not like '%[%' and `desc` not like '%[%' and `desc` not like '%[%' and `desc` not like '%[%' The code above will get you products that are in the description that do not contain a square bracket [or]. Also, you can use: where product_id='1234' and `desc` like '%[%' and `desc` like '%[%' and `desc` like '%[%' and `desc` like '%[%' and `desc` like '%[%' and `desc` like '%[%' and `desc` like '%[%' and `desc` like '%[%' Or you can get rid of the product_id completely. In your other question, you had some other problems. You can't use a like in an or. You are comparing to a string. So you need to use Oral toxicity of calcium acetate in rats. Rats were treated daily for 3 weeks with 0.17, 0.6 or 2.

jbotter 3d is no joke! kthx⍰⍰ 2d92ce491b
