Explore reviews and ratings of the best Android camera apps for 2018. Compare iPhone camera apps. Compare Android camera apps. Sort by popularity. Popular camera apps and camera app reviews. Control a webcam with Phoenixbioseditor2212, a free application that lets you control your webcam. The app offers several settings, including enable/disable the camera. Let your webcam stream live via Live View. Connect via USB or Bluetooth. Control various settings. Phoenixbioseditor2212 is a great alternative to the default camera app on your phone or tablet. This camera app is a free camera app that is compatible with Android 4.0 and later, and has many features including a night mode, gesture controls, and audio recording. This app can be used as a front camera. The night mode for this app is quite handy. You can access all of the controls with the camera in your screen. You can zoom in and out with the volume rocker, view photos with the camera button, change the brightness and even record a video. In the settings you can even record video in real time and use the preview to zoom in and out. You can also change the camera and do some tweaks to the live view. It has a simple interface and works well even on low end devices. The app is quite simple to use and the only issue is that the screen shot is small but you can click or tap the icon to get a larger image. The app also doesn't have any location controls but you can use the app to browse photos you have taken. Download Phoenixbioseditor2212 You can find the camera app by searching for it on Google Play or you can go to the App Store and search for "Phoenixbioseditor2212" to find it. It is a free app but does have a few in app purchases. They range from one to five dollars. You can also access a few different features via the in app purchases. It is a very good option for a front facing camera and you can use it for daily use on phones with low to medium end specs. How to use Phoenixbioseditor2212 You can find the app on Google Play and in the App Store. Once you have it installed on your phone, you can quickly access the app and
