Make a submission as to the one that had the most votes from the community. It is a very fun game. However, I would have liked to play with a friend. However, I understand that can't be done if the multiplayer mode is working. I'd like to get an opinion as to whether I should downgrade to a previous version (especially if I have already downloaded the modded version) or download the latest version as it has been suggested. As I download the game through Origin, if it was just possible to modify the settings so that my local network could be used, it would be a big help.
